

THE NHS HEALTH AT WORK NETWORK

THE VOICE OF NHS OCCUPATIONAL HEALTH

Become a 2025/26 NHS Network Supporter and take advantage of all of the benefits on offer

About us

The NHS Health at Work Network influences and advises Government and other key national stakeholders about occupational health in the NHS. With 119 Member organisations, our Network accounts for 95% of all NHS OH providers in England which in turn look after almost 1 million NHS staff.

We are pleased to be working closely with NHS England on implementing their Growing OH and Wellbeing Strategy and proud that we are the 'go-to' organisation representing NHS occupational health. Most importantly of all, the Network exists to represent and be the voice of its members.

'I've spoken to more people on the first evening than I did over two days of a much larger Conference I recently attended. I thought the Conference was excellent.'
